Balcony

SDS1.1 and SDS2.0

- Immediate implant placement posterior region, with asymmetrical implant position, balcony improves emergence profile

Oval

SDS1.1 and SDS2.0 with 4.6 Diameter

- Premolar region, if gap is narrow
- SDS1.1_4.6-ov_6x8: Insert alternatively, in case of a sufficiently large gap, instead of the SDS1.1_4.6-ov

SDS1.1 and SDS2.0 with 5.4 Diameter

- Molars upper/ lower central position, mostly late implantation, also immediate implantation with good interradicular septum

SDS2.0-ov	5.4	5.4	4.6	4.6							4.6	4.6	5.4	5.4	SDS2.0-ov
SDS1.1-ov	5.4	5.4	4.6	4.6							4.6	4.6	5.4	5.4	SDS1.1-ov

SDS Implant Indications - Special forms

SDS SWISS DENTAL SOLUTIONS

Sinus

SDS2.0_3.8-si
- External sinus exclusively in the premolar region (without bone replacement material), minimum 3 mm to maximum 5 mm residual bone

SDS2.0_4.6-si
- External sinus in the molar region (without bone replacement material), minimum 3 mm to maximum 5 mm residual bone

Short

SDS2.0_4.6-sh
- Minimum 6 mm residual bone, Consider distance to the antagonists/ crown height, immediate and late implant placement, premolar region, no immediate restoration

SDS2.0_5.4-sh
- Minimum 6 mm residual bone, consider distance to the antagonists/ crown height, immediate and late implant placement, premolar and molar region, no immediate restoration
